ABOUT

BSc (Hons) Computer Science & Technology undergraduate specializing in **Flutter, Dart,** and **AI technologies**. Experienced in developing scalable **cross-platform mobile apps, RESTful API integration, state management**, and **responsive UI design**. Focused on clean architecture, performance optimization, and AI-powered features, with strong problem solving, Git, and agile collaboration skills.

EDUCATION

BSc (Hons) Computer Science & Technology — 2022 – 2026 (Expect)
Sabaragamuwa University of Sri Lanka, Belihuloya, Sri Lanka.
Secondary & Higher Education - Other Stream — 2020
G/Batemulla National College

EXPERIENCE

Mobile App Developer & Publisher Intern — Feb 2026 – Present
EonTech Global Group (pvt)Ltd

Developed cross-platform mobile applications using Flutter and Dart
Integrated REST APIs and Firebase Authentication
Improved app performance by optimizing state management
Collaborated with a team using Git and Agile methodology

PROJECTS

TeaLink– Mobile Application
A smart tea supply chain management app connecting customers, collectors, and admins with real-time harvest tracking.
Technologies: **Flutter (Dart), Firebase Authentication, Cloud Firestore, Firebase Storage, Google Maps API, VS Code, Git & GitHub, Firebase Console, Android Studio.**

UniGPA - Track Your Grades, Achieve Your Goals.
A student-focused mobile app that helps university students calculate, track, and manage their GPA efficiently.
Technologies: **Flutter (Dart), VS Code, Git & GitHub.**

Expense Tracker – Manage Your Daily Expenses Efficiently
A modern Flutter mobile app that enables users to securely track, manage, and monitor daily expenses. The app supports real-time cloud data storage, receipt image uploads, and provides a clean, user-friendly interface for personal finance management.
Technologies: Flutter (Dart), Firebase Authentication, Cloud Firestore, Cloudinary, Git & GitHub

Portfolio website
A modern, responsive personal portfolio website showcasing projects, skills, and achievements with smooth animations.
Technologies: **React, TailwindCSS, VS Code, Git & GitHub, Framer Motion, Vercel.**

DialBook – Mobile Application
A lightweight contact management app for saving, organizing, and accessing phone contacts efficiently.
Technologies: **Flutter (Dart), Shared Preferences, VS Code, Git & GitHub, Android Studio.**

Convo – Mobile Application
A real-time chat application enabling secure messaging with Firebase-based authentication and cloud storage.
Technologies: **Flutter (Dart), Firebase Authentication, Cloud Firestore, Firebase Storage, VS Code, Git & GitHub, Firebase Console, Android Studio.**

Undergraduate AI Research Project – Present
AI-Based Multi-Species Intelligent Animal Deterrent System
Developing an AI-powered system using machine learning and computer vision to detect and classify animal species in real time. Designing adaptive algorithms to optimize acoustic deterrent signals based on detected species. Integrating AI models with embedded systems for automated, real-time environmental response.
Technologies: Python, Machine Learning, OpenCV, TensorFlow/PyTorch, NumPy, Signal Processing

TECHNICAL SKILLS

Programming Language: Python, Java, JavaScript, C, C++, C#
Mobile Development: Flutter
Web Development: React, HTML, CSS, TailwindCSS
Backend Development: Firebase
Database: MySQL, Firebase
Operating Systems & Tools: Linux, Command-Line Proficiency, Shell Scripting
Tools & Technologies: Git, GitHub, VS Code, CI/CD (GitHub Action), Figma
Development Practice: OOP, Agile Methodology, Data Structures & Algorithms (DSA)

ACHIEVEMENTS

YouthSpark 2025 Winner - Secured People's Choice Award and Most Promising Technology-Based Concept Award at the 2nd International Conference on Applied Sciences (ICAS), Sabaragamuwa University of Sri Lanka for presenting MatchMate LK football management application concept as part

CERTIFICATES

Flutter and Dart: Developing iOS, Android, and Mobile Apps — IBM
Python for Data Science, AI & Development — IBM
Developing AI Applications with Python and Flask— IBM
Getting Started with Git and GitHub — IBM
Hands-on Introduction to Linux Commands and Shell Scripting — IBM
Machine Learning with Python — IBM
